

THANT WAI YAN LINN

JUNIOR SOFTWARE ENGINEER | BACKEND DEVELOPER

Yangon, Myanmar | +95 9781059698 | twaiyy27@gmail.com | [Linkedin](#) | [github.com/Thantwyl](#) | [thantwyl-portfolio](#)

Professional Summary

I am a Junior Backend Developer with hands-on experience in building backend systems for web and mobile applications. Skilled in API development, database integration, authentication, security and server-side logic using FastAPI, Django, and PostgreSQL. Communicates effectively with frontend teams and has a basic understanding of frontend logic to support smooth integration and collaboration. Primarily focused on backend development, with strong interest in AI, automation, data science, and machine learning.

Professional Experience

Backend Developer Co-operation

Civil Master Solution | Python

Aug 2025 - Jan 2026

- Developed backend features for a production web application deployed on a live domain
- Implemented admin CRUD operations, authentication, database integration, chatbot integration using google gemini API, and SMTP email automation
- Worked with Supabase and supported deployment on Render

Frontend Developer Co-operation

Civil Master Solution & Ductil | Javascript

- Built responsive product showcase and advertisement websites using React and Tailwind CSS
- Used Claude and Grok for AI-assisted frontend development, debugging, and UI optimization
- Supported project deployment using Vercel

Project Experience

Backend Developer

Concert Ticket Ordering System | Python

Oct 2025 - Feb 2026

- Built backend functionality for a concert ticket ordering platform deployed on a live domain
- Implemented admin CRUD operations, user sign up/sign in, authentication and authorization, database integration, and CSV export
- Used Render PostgreSQL, integrated Cloudinary for image storage, and deployed the system on Render

Backend Developer

Flight Booking & Reservation Management System | Node.js Express

May 2026 - July 2026

- Developed backend components for a flight booking and reservation management system modeled after international airline booking platforms.
- Designed database structures, ERDs, data models, and API integrations.
- Participated in requirements analysis, system architecture design, and technical documentation.
- Worked with external services and third party API for flight search, payment processing, authentication, and customer notifications.
- Created project documentation, data dictionaries, workflow diagrams, and technical specifications using Microsoft Office tools.

Education

Bachelor of Science in Information and Communication Technology (ICT)
Rangsit University, Thailand

2023 - 2026

Technical Skill

Programming Languages : Python, JavaScript, HTML, CSS

Frameworks / Libraries : Django, FastAPI, React, Node.js, Express, Tailwind CSS

Databases : PostgreSQL, MySQL, Supabase, MongoDB, Firebase

Tools / Platforms : Git & GitHub, Postman, Docker, Figma, VS Code, Linux, Claude Code, Word, Excel, PowerPoint

Deployment / Cloud : Render, Vercel, Cloudinary, Netlify

Language

- Burmese (Myanmar) : Native
- English : upper-intermediate(B2)
