

THANT WAI YAN LINN

BACKEND DEVELOPER

Bangkok, Thailand | +66 967655893 | twaiyy27@gmail.com | [Linkedin](#) | [github.com/Thantwyl](#) | [thantwyl-portfolio](#)

PROFILE

I am a Junior Backend Developer with hands-on experience in building backend systems for web and mobile applications. Skilled in API development, database integration, authentication, security and server-side logic using FastAPI, Django, and PostgreSQL. Communicates effectively with frontend teams and has a basic understanding of frontend logic to support smooth integration and collaboration. Primarily focused on backend development, with strong interest in AI, automation, data science, and machine learning.

PROFESSIONAL EXPERIENCE

Backend Developer Internship

Civil Master Solution | Django, Supabase, Render

Aug 2025 - Nov 2025

- Developed backend features for a production web application deployed on a live domain
- Implemented admin CRUD operations, authentication, database integration, chatbot integration, and email automation
- Worked with Supabase and supported deployment on Render

Freelance Backend Developer

Concert Ticket Ordering System | Django, PostgreSQL, Render, Cloudinary

Oct 2025 - Feb 2026

- Built backend functionality for a concert ticket ordering platform deployed on a live domain
- Implemented admin CRUD operations, user sign up/sign in, authentication, database integration, and CSV export
- Used Render PostgreSQL, integrated Cloudinary for image storage, and deployed the system on Render

Volunteer Backend Developer / Mentor

Flight Ticket Ordering System | FastAPI, PostgreSQL, Docker

Jan 2026 - Apr 2026

- Developed backend features for a flight ticket ordering system in a real-world environment
- Implemented admin CRUD operations, user and staff management, authentication, database handling, and currency management
- Used Docker for development and supported hosting on the client server

Frontend Developer

Civil Master Solution | React, Tailwind CSS, Vercel

Nov 2025 - Jan 2026

- Built a product showcase and advertisement website for a company project
 - Developed responsive frontend pages using React and Tailwind CSS
 - Supported deployment on Vercel
-
